BOUNDARY COUNTY Public Information

Advisory: Winter Weather Advisory until 07:00AM Monday

An Arctic boundary will begin to slide into the region Sunday afternoon bringing gusty winds and much colder temperatures for Sunday night and Monday. Any precipitation falling will quickly transition to snow with the potential for light to moderate accumulations. Snow will continue into Monday in portions of the Idaho Panhandle bringing the potential for heavy accumulations. The combination of snow and flash freezing of moisture on roads will bring the potential for very slick travel conditions Sunday evening and during the Monday morning commute.

* **WHAT...**Snow expected. Total snow accumulations of 1 to 3 inches expected. Winds gusting as high as 40 mph.

* **WHERE...**Sandpoint, Bonners Ferry, Priest River, Eastport, and Schweitzer Mountain Road.

* **WHEN...**From 7 AM Sunday to 7 AM PST Monday.

* **ADDITIONAL DETAILS...**Plan on slippery road conditions. Patchy blowing snow could significantly reduce visibility. The hazardous conditions could impact the morning commute. The cold wind chills as low as 20 below zero could cause frostbite on exposed skin in as little as 30 minutes.

* **AFFECTED AREAS:** NORTHERN PANHANDLE

Instructions: A Winter Weather Advisory for snow means periods of snow will cause primarily travel difficulties. Expect snow covered roads and limited visibilities, and use caution while driving. The latest road conditions for the state you are calling from can be obtained by calling 5 1 1.
